

Validation Equations Sheet

Name: _____ Date: _____

INSTRUCTIONS

- After your 25 validation launches in Activity 4.1, fill in the equations below to calculate the actual win percentages for your landing zone design.
- Compare to Pat's requirements: $\leq 40\%$ Small Prize, $\leq 10\%$ Large Prize. If your design is outside these limits, revise.

Small Prize win percentage

Small Prize:		÷		×	100	=		%
	# landings in zone		total launches				win %	

Large Prize win percentage

Large Prize:		÷		×	100	=		%
	# landings in zone		total launches				win %	

Does your design meet Pat's requirements? ☐ Yes ☐ No

If NO, what will you change about your landing zone, and why?

Revision documentation:

Describe the changes you made to your landing zone design and why you made them.
